Descriere: Dublin Bus are seeking a procurement process to allow the establishment of appropriate resourcing frameworks under a multi party framework. Specific skilled resources are required by Dublin Bus in order to successfully deliver a number of high impact strategic projects in the coming years. The majority of these resources are expected to be utilised to support the National Transport Authority (NTA) programmes and will be funded by the NTA. However in parallel, Dublin Bus may also utilise this framework to procure specialist resources to support internally funded projects. Most of these roles will be defined duration engagements determined by the duration of the specific project. The expected duration of the framework will be for three years initially with further options to extend by agreement by two periods of one year Dublin Bus are seeking a procurement process to allow the establishment of appropriate resourcing frameworks under a multi party framework.
