Descriere: In the period 2020 - 2026, the Norwegian Public Roads Administration constructs three new lots on the E39 between Betna and Stormyra in Heim municipality, Trøndelag county. When this project is completed, there will be a connected good European road standard for this entire stretch of E39. Sub stretch 3, Stormyra - Staurset, of which this contract work consists, shall be carried out in the period April 2024 - September 2026. The contract work mainly includes the construction of approx. 10.6 km new two-lane E39 between Stormyra and Staurset; stated from profile no. -2060 to profile no. 8470. A new channelised junction shall be constructed towards county road 680 towards Kyrksæterøra and Aure, a T-junction at Barhals and the accompanying exits, side roads and agricultural roads as shown in the presentation and coordination models. The designed speed is 80/90 km/h. Large parts of the stretch run along the existing road, with partly sided terrain. The work requires good logistics and experience in handling and moving large mass volume.
