Descriere: The intent of the competition is to appoint a suitably qualified and experienced organisation to undertake design consultancy services in relation to the delivery of the A96 Dualling Inverness to Nairn (including Nairn Bypass) scheme. The scope of the services will include but not be limited to undertaking a Design Manual for Roads and Bridges (DMRB) Stage 3 assessment of the preferred option which will be announced in October 2014, development of specimen design, statutory procedures, preparation of tender and contract documentation, and construction supervision. Throughout the commission the organisation shall undertake the duties of the CDM Co-ordinator in accordance with the Construction (Design and Management) Regulations 2007 as amended or updated. Transport Scotland may also require additional similar design consultancy services associated with the outcome of the A9/A96 Connections Study which is currently being progressed.
