Pretul estimativ: 90.750,00 RON - 90.750,00 RON

Descriere: Ethernet Frame Interface (EFI). For 3300 and 5500 Series systems, Connects test machine to PC or Dashboard Ethernet port - Bluehill Universal Testing Software Each application module provides the capability for tension, compression, flexure, stress-relaxation, creep, peel, tear and friction testing and test control based off of extension, load or strain. Also included is Instron's complete calculation library with hundreds of different calculations such as modulus and ultimate tensile strength, as well as user-defined calculations. Bluehill's one-of-a-kind report generator allows users to create customized report templates that can be linked with test methods and used to export test results via email or save as HTML, Word or PDF. Raw data and result export files are completely customizable for enhanced compatibility with Laboratory Information Management Systems. Options are available such as advanced test control, file change logs and approval, a networked database, and web camera recording. Windows 10 and Windows 11 (64 Bit only) operating systems, excluding Home editions. 2450-730B4 Bluehill Universal for existing Series IX license with 3300, 5500, IS02, 5900 or 59-R8 controlled systems Must choose one application module. Optionally choose one or more advanced options. New media shipped. Please supply original software's serial number and system ID. - Operator Dashboard for new and existing 3300 / 3400 / 5500 / 5500A / 5900/ 6800 Series Systems Includes: Flat screen, indu
