Descriere: Expressions of Interest are sought from consultancies with heritage, conservation, and infrastructure engineering experience together with sufficient resources for the design of a Programme of refurbishments for multiple buildings on the Parliamentary Estate. The following list of services are required, however this list is not exhaustive and applicants should note that additional related services may also be required under this appointment: (i) Building Services Engineer; (ii) Civil and Structural Engineer; (iii) Acoustic Engineering; (iv) Surveys (including but not limited to Building Condition, Asbestos, Acoustic, Below Ground Services, Existing Services, and Structural); (v) Lift Design and Controls; (vi) Fire Engineering; (vii) ICT System Services; (viii) Public Health Advice and Drainage Engineering Services; (ix) Business Case Support (particularly in regard to Life Cycle and Energy Costings); (x) Sustainability and Environmental Services; (xi) Energy Efficiency Engineering; (xii) Vehicle/People Movement Modelling; (xiii) Specialist Lighting Design; (xiv) Power Networks Design; (xv) Audio Visual equipment design; (xvi) Security Consultancy and Engineering; (xvii) Access control; (xviii) CCTV; (xix) BMS Design and Specification. The House of Commons Department of Facilities is embarking on a large-scale programme for the development of the buildings on its Northern Estate. Under the programme, Norman Shaw North, Norman Shaw South, 1 Derby Gate, and 1 Parliament Street, all require refurbishment over the next 6 years in a potentially phased manner. This is due largely to the age and fragility of the buildings' Mechanical and Electrical services; poor environmental performance; and fire safety shortcomings. Additionally, these buildings are all listed Grade 1 or Grade 2* and several are of special historical significance. The Northern Estate holds space equivalent to approximately 30 000 m² NIA, of which, around 15 300 m² requires refurbishment.
