Descriere: The contract is for the provision and implementation of an Online Collaboration and Learning Environment system. The initial requirement is intended to be for Warwick Business School, Centre for Professional Education and Language Centre areas of the University, with potential further usage extended across IT Services and the wider University and or international collaborations as appropriate and subject to internal approval. It is anticipated that the contract will cover such aspects as (but not limited to) licence fees, ongoing support and maintenance and training and will be for 3 years with 2 further 12 months options to extend.
