Descriere: Luas Cross City will represent the next addition to Dublin's Luas light railway system. Running from the Luas GreenLine terminus at St. Stephen's Green through the city centre Phibsborough and Cabra to Broombridge the new line will link the Luas Red and Green Lines and will also serve the planned new DIT Campus facility at Grangegorman. The proposed line is 5.6 km in length and will have 13 stops. It will provide interchange with suburban railway services at Broombridge and with city bus services at numerous locations throughout the city centre. The proposed Luas Stops will include shelters, seating, balustrades, handrails, signage, bins, notice boards, Emergency Help Point's, Passenger Information Display's and Advertisement drums. The contract for the design, manufacture and supply of the Luas Cross City stop furniture is for a duration of 5 years with an option for a further 5 years. This Contract may include for the provision of stop furniture for future Luas lines and for the upgrade of the existing Luas lines. RPA will not be responsible for any costs, expenses or charges incurred by candidate or tenderers involved in this process. Award of contracts will be subject to the approval of the competent authorities. If as a result of institutional reform the Railway Procurement Agency merges with, or is subsumed into, other public bodies, it reserves the right to use the contract to procure works for the new entity. Candidates are advised that RPA is subject to the Freedom of Information Acts 1997 and 2003.
