Descriere: Provision to purchase two 18MVA/36MVA, 33 kV/11,5 kV, 50 Hz high efficiency, robust power transformers with on load tap changer. The life expectancy of the transformers shall be not less than 40 years. Transformers shall be provided with neutral earth resistors. The transformers and all accessories shall be compatible with all current switchgear manufacturers standard designers and current SCADA/BMS systems. Transformers shall comply with all current and new EU Directives. Additionally, provision for maintenance of the two transformers will also be required as part of the contract, for a minimum of 5 years.
