Descriere: Elmbridge Borough Council wishes to select a maximum of 3 providers to the framework for Arboricultural Services. Applications are invited from suitably qualified and experienced organisations who wish to provide Arboricultural Services to Elmbridge Borough Council to join the Framework Agreement. The Services comprise of arboricultural works to trees throughout the boroughs open spaces and land holdings. Elmbridge Borough Council has a large quantity of trees across over 500 hectares of publicly accessible country side, and 350 hectares of amenity parks, recreation grounds, cemeteries, church grounds, open spaces, community centres and offices. The Arboricultural works will be specified by tree officers and members of the Leisure and Cultural Services Team. Contractors can be asked to carry out a broad range of tree surgery and arboricultural services from large dismantles and crown reductions, to formative pruning, crown lifting, and new tree planting including emergency work when necessary. Some of the service will need to be carried out on highways were the adjacent land is owned by Elmbridge Borough Council.
