Data publicarii	29.11.23	Coduri CPV	48000000

Descriere: Fontys is a broad-based university of applied sciences. Fontys wants to improve the way of documentation and use of research information. The main objectives of this market consultation are: - To gain insight in currently available solutions; in order to form a clearer idea of how research information can best be organised within Fontys. Are there applications or modules that can process research information to achieve our goals. - To use the expertise of the market to obtain new or unknown insights that can help us in the further course of this endeavour. Does not apply.
