Descriere: Vestland County's Infrastructure and Road Department shall carry out load carrying capacity measurements on approx. 4,000 km of county roads in the period 2024 - 2025. This is equivalent to approx. 6,000 km of lane road, which shall be divided between 3,000 km of lane for each of the years. Distribution of stretches and set up of routes for each of the years will be done in collaboration with the selected supplier.
