Descriere: Kinn municipality will use this procurement to enter into a contract with a contractor for the execution of the following project: Kinn municipality shall equip the municipal part of Gate 1 in the centre of Måløy. Kinn municipality would, thus, carry out upgrading of the surfaces in the street, new surface water installations, new lighting, new sewage pump stations, new water and sewage installations with the accompanying infrastructure. This contract B1 includes the renewal of the OVA system, new street light installations, a new conduit system for fibre and electro, as well as upgrading all surfaces in Gate 1. Contract M1 (sewage pump stations) has been contracted. The delivery is a general contract for OVA installations, street light installations, ditches for electro and surfaces in Gate 1. The following main deliveries are included in the contract:

- Complete ditches for OVA with associated infrastructure
- Complete ditches for electro/fibre with the accompanying infrastructure
- Street upgrade

The contract will be signed in accordance with NS8405:2008 as a general contract with the amendments stated in the procurement's annex.
