Descriere: The Norwegian Defence Estates Agency requests support for several different tasks in connection with surveying assignments related to the construction projects for the new combat aircraft base. The contract also includes processing GIS data (geographic information system) at Ørland Main Air Station. The construction projects include i.a. the infrastructure project, a squadron building, runway expansion, a fire drill area, NAWSAR, a crew billeting area. During the contract period, the Norwegian Defence Estates Agency will require sequential import into the Norwegian Defence Estates Agency's IT systems.
