Descriere: Building-cleaning services. College Cleaning Services. This cleaning tender process is targeted to have a cleaning contract in place to commence on 1.1.2016. The process will include the creation of a select bidder list following analysis of PQQ documents (within which the scoring criteria will be included). The nature of the contract demands a good local infrastructure as this cleaning covers over 39 000 square metres of college buildings in Macclesfield and occupied by over 2 000 people. Labour resource and relief cover is therefore critical. We have set a Minimum level of turnover for this tender at 250 000 GBP which takes into account the contract turnover and cash flow associations. In the PQQ, this is a discretionary pass/fail question on the basis that we will consider any additional guarantees and formal assurances such as parent company guarantors or similar which must be included to support any submission. We have set a minimum Employer's (Compulsory) Liability Insurance of 10 000 000 GBP and a Minimum Public Liability Insurance at 5 000 000 GBP. The contract will be for a 3+1+1 period (5 year in total).
