Descriere: In the continually changing market in which EirGrid operates, the business requires the assistance of temporary contractors to support permanent and contract staff in various areas of the organisation, in both the Republic of Ireland and in Northern Ireland, from time to time. Given internal resource constraints this assistance is often sought from temporary contract staff. EirGrid is not in a position to payroll these individuals themselves and therefore needs the support of a temporary contractor payroll support services provider to provide payroll services to these individuals, on an all island basis. The initial contract period envisaged is 3 years with the possibility to extend up to an additional 2, 12 month periods, subject always to the satisfactory performance of the supplier. Interested Candidates may choose to submit a PQQ response by registering their interest in this contract through the Irish Government Procurement Opportunities Portal (www.etenders.gov.ie) only. Registration is free of charge. All information relating to this contract will be published therein. EirGrid does not accept responsibility for information relayed (or not relayed) via third parties. Full details of the contract requirements and the process for submitting a pre-qualification questionnaire (PQQ) application are provided in the Information Memorandum and PQQ document provided with the contract notice on the eTenders web site (www.etenders.gov.ie).
