Termenul limita pentru depunere:	10.01.24 12:00	Pretul estimativ:	8.000.000,00 NOK 8.000.000,00 NOK

Descriere: The aim of the procurement is to establish a framework agreement for travel agency services that provide low total costs, reduced transaction costs, increased use of digital systems, and better security for the contracting authority. The agreement shall cover the contracting authority's need for travel services with an emphasis on air transport and hotels. The travel agency shall be a total supplier of travel agency services, including booking flights domestic and/or international journeys, hotel accommodation, trains and hire cars. The travel agency must deliver a very user friendly and easily accessible digital system/booking portal on web and app. The agreement ought to contribute to an increased climate focus and sustainability. This means, among other things, that it is clearly informed and good options are given to make more climate-friendly choices when it comes to travel, including options for ordering trains instead of planes.
