

Request for Tender for Single Party Framework Agreement for Traffic Management and Bollard Management for Dublin City Council

I.D.: 90451170

Data publicarii	08.12.23	Coduri CPV	63712700
-----------------	----------	------------	----------

Descriere: Dublin City Council is seeking to establish a Single Party framework for Traffic Management and Bollard Management for a period of 3 years. Dublin City Council is seeking submissions from suitable qualified economic operators to carry out traffic management services for the implementation of various traffic management, traffic free and cycle installation schemes as they are required throughout the Dublin City Council administrative area, mainly within the city centre and for the management of bollards which are removed and installed daily at various locations. Please note that this project is subject to funding. For further information please refer to documentation available to download from www.etenders.gov.ie Resource ID 1925871
