

New competition for sludge emptying sewage in sparsely populated areas

I.D.: 90297710

Data publicarii	28.11.23	Coduri CPV	90513600
Termenul limita pentru depunere:	05.01.24	Pretul estimativ:	9.200.000,00 NOK 9.200.000,00 NOK

Descriere: The competition is for a service contract for emptying and transporting sludge. The contracting authority is Rakkestad municipality. The objective of the procurement is the collection of sludge and sewage water from interceptors for sludge, grey water tanks, mini-treatment facilities and blocked tanks in Rakkestad municipality, as well as internal transport between minor treatment facilities and the main treatment facility Bodal. The contract also includes registering site types, simple inspection of any errors at the installations in connection with emptying, and reporting to the contracting authority in Komtek. The procurement's value is estimated to: Approx. NOK 2,300,000 excluding VAT per annum. The volume is an estimate and is not binding for the contracting authority. See the procurement documents for further information.
