Pretul estimativ: 1.473,64 RON - 1.473,64 RON

Descriere: Pachet Reactivi PCR Pachet Reactivi PCR ce contine: Luna Universal qPCR Master Mix - 200 rxns 2 kituri x 736.82 RON/ kit Size: 200 rxn (2 x 1 ml). Rapid, sensitive and precise dye-based qPCR detection and quantitation of target DNA and cDNA sequences. One product per application simplifies selection. Convenient master mix formats and user-friendly protocols simplify reaction setup. Non-interfering, visible tracking dye helps to eliminate pipetting errors. Dye-based quantitative PCR (qPCR) uses real-time fluorescence of a double-stranded DNA (dsDNA) binding dye, most commonly SYBR® Green I, to measure DNA amplification during each cycle of a PCR. Producer: New England Biolabs.
