Descriere: The Francis Crick Institute Limited (the Crick) is an exciting project to create a world-leading multi-disciplinary biomedical research institute in the heart of London. The project is supported by six of the world's most influential and respected scientific organisations: Cancer Research UK (CRUK); the Medical Research Council (MRC); the Wellcome Trust; University College London (UCL); Imperial College London; and King's College London. The Crick is intending to procure Accommodation and Care Equipment for Rodents (ACER) in 2015/2016 valued at up to 7 450 000 GBP. The equipment will be broken into 3 lots: Lot 1 — Individually Ventilated Cage systems including automatic watering manifolds and nozzles and 20 % external water pouches up to 6 000 000 GBP; Lot 2 — Mobile Cage Change Stations up to 1 200 000 GBP; Lot 3 — Mobile Cage Change Stations for work up to and including Hazard Group 2 Pathogens up to 250 000 GBP. Please note that a separate procurement activity will be run for Lot 4 — Cage base transport dolly's up to 400 000 GBP mentioned in the Prior Information Notice. This procurement will take place after Lot 1 has been awarded to ensure that the Cage base transport dollies are compatible with Lot 1. The Accommodation and Care Equipment for Rodents will be sited at the new Crick building at Brill Place in London. A crucial part of the ACER equipment is that 20 % of the requirements will be required in advance of Home Office testing at the end of September 2015. The subsequent phases will be required in 2016.
