Descriere: This is a two stage tender process for Sustainable Waste Management Services. The University of Reading Estates and Facilities Management Directorate (EFD) manages the provision of Sustainable Waste Services on behalf of the University and as such are seeking a high quality waste management service that fully complies with the University's environmental objectives and with all applicable legal requirements (including The Waste (England and Wales) (amendment) Regulations 2012) for up to four years subject to satisfactory annual reviews. If your submission does not offer a pay-by-weight at the point of collection proposal, it will not be considered for the next stage.
