Descriere: Drammen municipality shall enter into a framework agreement for transport of users connected to the municipality's respite care, activity centre VTA companies and day and evening centres (hereafter called the "activity centre"). The aim of the contract is to cover the need for transport of persons who have been given a decision for this for various reasons. The activity centres are an important service that shall contribute to a meaningful everyday life, adapted to the user's abilities and interests. The transport to and from the activity centre is to be seen as an integrated part of the tender offer. The users in question require competent, caring, interested and flexible drivers. Passenger cars and minibus/special transport are used in order to carry out the assignment.
