Descriere: Inspections, maintenance service, repairs and occasional supply of gymnasium equipment to the MOPAC estate. The Estate covers 32 boroughs within the Greater London area, and a number of other locations on the outskirts.— Planned maintenance is to be carried out to relevant sites across Greater London. The maintenance frequencies shall be determined by the importance of building categories across the MOPAC estate.— The Supplier shall provide a reactive repair/replacement of gymnasium equipment service generally during normal working hours; however the minimum response time for category 2 reactive works shall be 3 days with rectification in 5 days to ensure that all gymnasium equipment is operational, safe and secure at all times.— The Supplier shall provide annual inspections and corrective work, in order to maintain compliance. The frequency of these shall be determined by the location and need, be it statutory or best practice across the MOPAC estate. Inspection compliance is required to ensure MOPAC's statutory duties under the Health and Safety at Work, Act, the Management of Health and Safety at Work Regulations, the Working at Height Regulations. — The Supplier shall provide the occasional supply of gymnasium equipment as and when required and agreed by the Authority. This framework agreement is open to all members of the GLA group, as listed below:— Transport for London (TfL) and all its' subsidiary companies, a list of which can be found at <http://www.tfl.gov.uk/>— Mayor's Office for Policing and Crime (MOPAC), which oversees the work of the Metropolitan Police Service (MPS).— London Fire and Emergency Planning Authority (LFEPA).— British Transport Police (BTP).— City Of London Police (CLP).— London Legacy Development Corporation (LLDC), in charge of the Olympic legacy.
