Descriere: Dispenser LABmax premium, volum 5.0 – 50.0 ml The universal dispenser LABMAX premium has a sophisticated system which allows air purging and draining without any loss of reagent! Due to the direct displacement system LABMAX premium is ideal for crystalline solutions. We improved the adjust knob for a quick and precise volume setting. In addition, we added the built-in recalibration mechanism. • high-quality precision instrument, made in Germany best in its class performance, most competitive pricing • highest accuracy and precision, our error ranges are better than the DIN EN ISO 8655-5 requirements • all-purpose dispenser, universal chemical compatibility • direct displacement piston system, ideal for crystalline solutions • built-in recalibration mechanism including calibration tool • robust and stable, made of high quality materials e.g. platinum springs • 0% loss of reagent by pumping in a closed circuit • 100% drip-free due to our unique anti-drip system • 360° rotatable valve block for added safety • with 2 scales - for measurements in millilitre and ounces • one handed operation • flexible by using different bottle adapters • easy to clean, completely autoclavable at 121°C • telescopic suction tube included in scope of supply • individual certificate and serial number • DE-M marked according to the German calibration law Livrat sticla transparenta gradata cu capac, 1000 ml, cod CFB017 - 2 buc
