Descriere: To replace the two abated Shelton Diamond Cremators with two new machines to fit in the same space and be connected to the existing abatement equipment. To provide up to date efficient cremators to allow the service to progress and develop and be in a position to cope with the expected increase in the death rate after 2016. The equipment installed shall be capable of operating fully in compliance with the performance and emissions standards specified in the current version of the UK's Secretary of States Guidance PG 5/2 and associated AQnotes. The contract will include: the supply of all necessary equipment (cremators, flue gas coolers, filtration/absorption plant, dump coolers, exhaust gas flues, fans, plus all necessary: controls, acoustic attenuation dampers, valves and motors. The contract will also include: the removal of existing cremators, the removal of redundant plant and all necessary building work and all mechanical and electrical installations associated with the plant. To provide a maintenance agreement to cover the two new machines, the existing Sheltons cremator, abatement equipment and all ancillary equipment.
