Descriere: The HSE hereby invites suitably qualified and experienced service providers to submit tenders to provide a GP Out-of-Hours Service for patients in Sligo / North Leitrim / West Cavan who do not currently have a GP out-of-hours service. Tender submissions should propose an 'all in' model, for a fully-managed service whereby the Service Provider would provide the GPs, the call centre and triage services, the staffing and other infrastructure required, whilst the HSE will provide the premises for the treatment centre in Sligo. Service providers are requested to only submit a tender if they are confident that they have the requisite capacity, suitably qualified staff, experience and expertise within their organisation to deliver on the project as outlined in the project documentation, and in line with the project timeframe, i.e. to provide the GP Out-of-hours service commencing as soon as practicable after award of contract but anticipated as being by 1.9.2015, but no later than 1.10.2015. For full details please see the Invitation to Tender documentation published with the Contract Notice on the etenders website, www.etenders.gov.ie
